Freelance Web Developer
JS/PHP/CSS, WordPress + Node
Oakland, CA
Sep 2011 - Present

- Full site design + build, usually using WordPress or Shopify platforms
- Modify existing builds: theme/plugin mods, mobile layers, slow load audits
- Hosting/maintenance: Server config, DB backups, SSL

Web Developer - PHP / WordPress
Computer Courage, Emeryville, CA
Feb 2016 - Aug 2018

- Work with CSS/JS in front + PHP in back to develop custom WordPress solutions for an array of client needs
- Woocommerce/eCommerce, REST API, CPT/user roles, mobile layers, plugin mods, etc. etc.
- Full site design + build

Education: Laney College, stackoverflow.com

Other Skills:

- Fluent JS ES6+, CSS, PHP
- Web Fundamentals, Critical Rendering Path, Apache/PHP config, Node server / JS daemon
- Currently exploring Vue/NuxtJS + the JAM stack, along with the potential for www as a medium for visual + literary arts
